### **DESKTOP REVIEW OF NORWEGIAN EXPERTS INSPECTION REPORT**

#### **THE TEST HOUSE (CAMBRIDGE) LTD REFERENCE: T30642**

The Test House was provided with an English translation of Chapters 2 to 4 of the Norwegian expert's report and a bound set of photographs referenced in the report text. The bound volume of photographs included photograph captions in Norwegian – no English translation of the captions was made available.

The work completed by the Norwegian expert in his two visits to Harstad included much painstaking cleaning and preservation work, which we believe, had been completed in an exemplary manner. Documenting of evidence in the form of photographic images and the report text we believe had also been completed in a professional and exemplary manner. The report text appeared well structured and highly detailed in both the extent and breadth of its coverage.

Having reviewed the report and seen the damage, we feel that our visit and report has contributed little additional material evidence, beyond that which had already been covered by the Norwegian expert.
