Digital Economy and Society Index (DESI)¹ 2018 Country Report Norway

The DESI report tracks the progress made by Member States in terms of their digitisation. It is structured around five chapters:

| 1 Connectivity | Fixed broadband, mobile broadband and prices |
|-------------------------------------|---|
| 2 Human Capital | Internet use, basic and advanced digital skills |
| 3 Use of Internet Services | Citizens' use of content, communication and online transactions |
| 4 Integration of Digital Technology | Business digitisation and e-commerce |
| 5 Digital Public Services | eGovernment and eHealth |

The DESI was re-calculated for the previous years for all countries to reflect slight changes in the choice of indicators and corrections to the underlying indicator data. As a result, country scores and rankings may have changed from the previous publication. For further information please consult the DESI methodological note at https://ec.europa.eu/digital-single-market/en/desi.

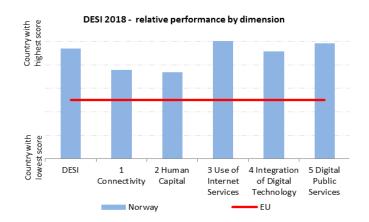

Digital Economy and Society Index (DESI) 2018 ranking
