About the EEA and Norway Grants

The EEA and Norway Grants are an instrument for Norway's European policy. Norway and the EU cooperate closely. Under the EEA Agreement, Norway is part of the European internal market. The EEA Agreement sets out the common goal of working together to reduce social and economic disparities in Europe and strengthen cooperation between European countries. Norway contributes to this through the EEA and Norway Grants. It is in Norway's interests that disparities in Europe are reduced, as Europe will then function better in both economic and social terms.
