Re: Cancer cluster at NTNU

Dear Dr. Dybing:

I reviewed the draft report of the Expert Group and made comments. The Group responded very well to my comments and those of the other reviewers. I have also reviewed all other materials related to the issue that you sent to me. The final report is an excellent evaluation of the Cancer cluster and notes the difficulties of such investigations.

Sincerely,

A handwritten signature in black ink, appearing to read "M.T. Smith".

Martyn T. Smith, Ph.D.
Professor of Toxicology
Director, Superfund Basic Research Program
