eNorway 2009
–the digital leap

Mrs. Wenche Lyngholm
State Secretary, Ministry of Modernisation
Gothenburg, November 2005
eNorway 2009 – action plan for a digital society

• Individual participation in digital society.

• A co-ordinated and user-oriented public sector

• Innovation and growth in the Norwegian economy
Main initiatives

- Top manager forum agreeing on principles of a common architecture based on open standards
- Electronic service delivery through the portals MyPage and Altinn
- Common solutions for eID/ eSignatures, secure electronic service delivery and intergovernmental exchange of information
A connected society

Norway has one of the world’s most connected populations

Share of households with Internet-connection

Defining aims for the future

- 2009: All interactive services for the general public shall be accessible through MyPage
- Availability of services through alternative channels
- More personalised services
- Efficient and paperless government
