www.mpe.dep.no

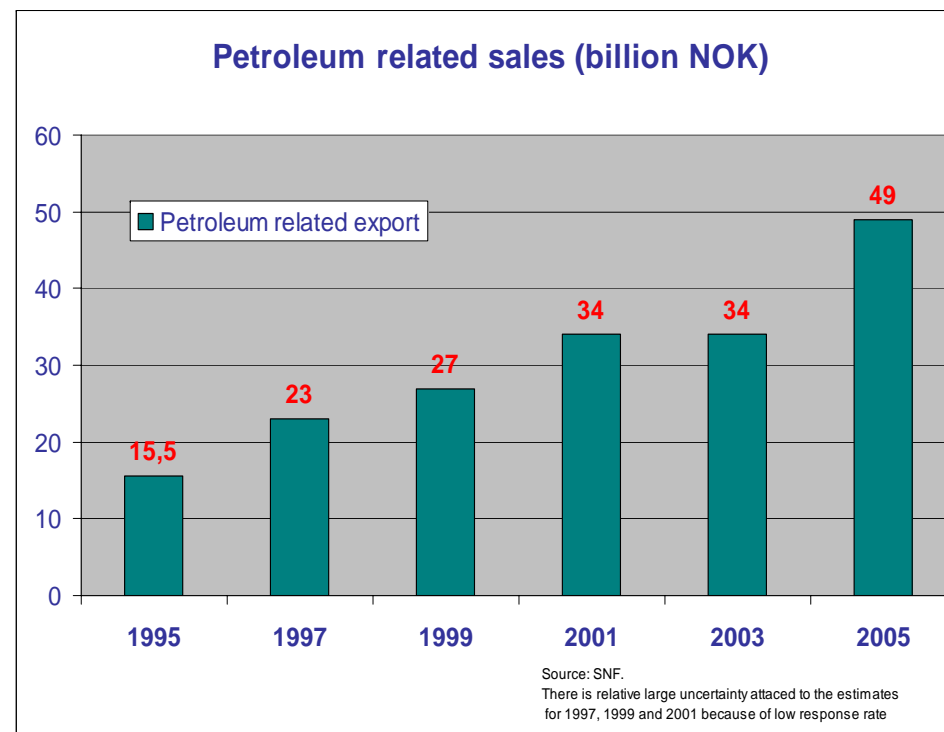

Activity level is high

- Ongoing developments: Snøhvit, Ormen Lange, Alvheim, Vilje, Volve, Enoch, Blane
- Expected PDOs; Gjøa, Sharv, Camilla/Belinda, Alve, Volund

The Norwegian Supply and Service Industry

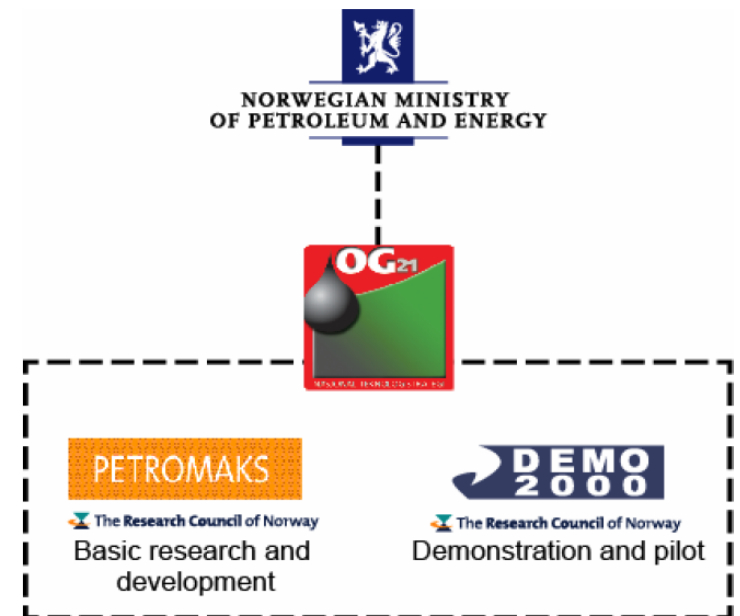

- Sales of goods and services abroad was almost 50 billion NOK in 2005
- geographically distant markets gain market share

Petroleum Research, Technology and education

Priority areas:

- Environmental technology
- Enhanced recovery
- Exploration and reservoir characterisation
- Subsea processing and transport

Carbon Capture and Storage

This Government has ambitious goals:

- The aims are to:
 - Cooperate with the industry on realizing capture of CO₂ at gas fired power plants
 - Realize a CO₂ capture-facility at Kårstø
 - Establish a value chain for transportation and injection of CO₂
- The Government will contribute financially
