*Nordic cooperation for improved transport infrastructure and better environment*
3. **Transport Reforms**
  - The ongoing Transport Reform in Norway
    - *financing, planning, establishment of development companies for roads and modernisation of the railway sector*
  - Presentation by the Swedish delegation on transport reforms
  - Modernisation of the railway in Denmark
  - Ministerial discussions

Coffee break

4. **Road Infrastructure Planning**
  - Planning and construction  
*Possible topics:*
    - *How is the planning of major infrastructure projects processed in your country and what are the main challenges you are facing?*
    - *Do you have special arrangements for the development and construction of major infrastructure projects? Have you adopted measures for one or several governmental construction companies and what sort of experiences have been gained.*
  - Private car traffic in urban areas  
*Possible topics:*
    - *In which manner are the transport challenges in urban areas thought to be solved – is there a clear objective and what kind of measures are thought to be carried out?*
    - *What distribution of responsibility is there between the concerned authorities for the different actions that shall/can be accomplished to reach a fixed objective – and how are the projects financed?*
  - Discussions on different perspectives
