Dear Tor Michal,

I understand that there is an ongoing consultation process in Norway regarding a new law proposal for vocational schools. You recently requested some information about whether the University of South Wales would prefer vocational students to study the ECTS and/or ECVET system.

The University's preference is that only one system is followed. The preferred system would be ECTS as this is the system that most students across EU/EEA countries study and therefore UK universities are very familiar with this system.

If Noroff students were to follow the ECTS system, this would enable us to make swift decisions on applications and offer letters efficiently.

I hope this information is useful to you in making your final decision but if you need any further information, please do not hesitate to contact me.

Best Wishes,

Joanna Scaplehorn
